

# JULIAN LUNDQUIST

## Full Stack Software Developer

210-516-2093

julian.j.lundquist@gmail.com

linkedin.com/in/jlun

github.com/julian-lundquist

I have always been intrigued by how electronics work. After becoming a licensed realtor, I became aware of the fact that I could not ignore my passion for coding. The idea of being able to program your imagination into existence sparked an ever-expanding desire to learn new technologies and thrive in collaborative environments. Learning the latest technologies and tools in the industry to maximize efficiency as a software developer is my recipe for success. Visualizing the potential of any idea or project presents endless possibilities and solutions to conquer!

## PROGRAMMING SKILLS

HTML - CSS - SASS - Bootstrap - Javascript - Typescript - jQuery - Java - Lua - MySQL - NoSQL - AWS Basics - Angular - Angular CLI - React - Redux - Firebase API - Stripe API - Google Maps API - Version Control w/ Git - npm - Node.js - Springboot - Apache Tomcat - Apache Maven - Pair Programming - Agile Methodologies - DevOps Lifecycle - CI/CD Pipeline

## DEVELOPMENT PROJECTS

### People's Clothing Ecommerce PWA

May 2021 - Present

Hosted: [people-clothing-live.herokuapp.com](https://people-clothing-live.herokuapp.com)

Github: [github.com/julian-lundquist/react\\_clothing\\_ecommerce\\_pwa](https://github.com/julian-lundquist/react_clothing_ecommerce_pwa)

This is a ecommerce clothing pwa (progressive web app) which uses React, Redux, SASS, Firebase, Stripe API, and Google Maps API. A user is able to sign in with google or create an account directly. When a user logs in they can add items to cart, modify items, and purchase with stripe through an Express.js REST API backend. This app is hosted for free via heroku, visiting the site may take a couple minutes to display.

### Character Rolodex

April 2021 - May 2021

Hosted: [julian-lundquist.github.io/react\\_character\\_rolodex](https://julian-lundquist.github.io/react_character_rolodex)

Github: [github.com/julian-lundquist/react\\_character\\_rolodex](https://github.com/julian-lundquist/react_character_rolodex)

This is a character rolodex which uses React and displays characters with a search filter. Giphy api is used to retrieve a GIF image based on the character's name.

## **ARIS**

**(Automated Readiness Information System)** June 2019 - January 2020

ARIS is an app which tracks personnel, equipment, and training. ARIS uses Oracle 11g database, ADF RichClient API, WebLogic, Java SE 6, and jDeveloper as the IDE. I worked on front-to-back end development of new features and bug fixes. Was also responsible to ensure database changes were applied for implementations across multiple databases. Also assisted other co-workers and team members with setting up the proper development environment which had similar codebases to this project.

## **EODIMS (Explosive Ordnance Disposal Information Management System)**

April 2019 - June 2019

In my initial time at Appdiction Studio, I had worked on E2E testing of an Angular + Springboot application. I would locate issues/bugs and document the findings by attaching them to an existing/new story using JIRA software ensuring smooth flow through the CI/CD Pipeline.

## **Kwikrliquor**

February 2019

An alcohol delivery application ensuring that the customer is above the age of 21. Allows you to view products without logging in and the ability to add products to the cart when you log in. Has an ID verification system in which the customer submits their ID to the administrative department for review.

## **Cody's Curiosities (Ad Lister)**

January 2019

Allows a user to login or register an account and post their own ads to the site with sections to view their own ads posted, or all of the posted ads. Also allows the user to search for ad titles based on user input.

## **Weather Map**

November 2018

This project used HERE API to be able to grab the 3-day temperature forecast from the longitude and latitude of a specified location. There is a marker/pin that you drag and drop on the location of the world wide map and it gives back the forecast.

## **Coffee Project**

October 2018

Allows you to search through different roasts and names of coffee based on user input, as well as the ability to add coffee names and choose what roast it is.

## **Residential Lease Application Form**

September 2018

A Residential Lease Application Realtor Form created in HTML and CSS with input fields for information regarding the form itself.

## EDUCATION

### Codeup

February 2019

Fully-immersive, project-based, intensive 18 week Full Stack Web Development career accelerator that provides students with 600+ hours of expert instruction in software development.

### Allied Real Estate Schools

April 2018

Texas Real Estate Courses required to become a licensed realtor.

### DATA Magnet Program - Roosevelt High School

June 2016

Design & Technology Academy which has different areas of focus in Animation, Architecture, Computer Science, Design and Arts, Technology Application, and Video Production.

## CERTIFICATIONS

### Certified SAFe® 4 DevOps Practitioner

Sept. 9, 2019 -

Sept. 9, 2020

A Certified SAFe 4 DevOps Practitioner (SDP) is a SAFe professional responsible for improving the complete flow of value through a Continuous Delivery Pipeline from idea to operational solution.

### Certified SAFe® 4 Advanced Scrum Master

June 17, 2019 -

June 17, 2020

A Certified SAFe 4 Advanced Scrum Master (SASM) is a SAFe Scrum Master professional responsible for improving team results.

### Certified SAFe® 4 Scrum Master

June 14, 2019 -

June 14, 2020

A Certified SAFe 4 Advanced Scrum Master (SASM) is a SAFe Scrum Master professional responsible for improving team results.

## EXPERIENCE

### **A-Peaks Inc - IT Specialist**

November 2020 - December 2020

Maintained electronic equipment/hardware, prepared pdf documents, sent promotional emails to clients, helped with any technical issues.

### **Appddiction Studio - Web Developer**

April 2019 - January 2020

At Appddiction our team incorporated agile methodologies to communicate efficiently with product owners and team members to ensure the CI/DC pipeline flow is smooth. My responsibilities involved developmental testing, ios/android development, web development, and database management.

### **Real Estate Sales Agent**

June 2018 - Present

## SOFT SKILLS

Gallup Top 5 CliftonStrengths: Futuristic, Competition, Ideation, Analytical, and Focus
